DRAFT

2. Aim & Objectives

Aim of the plan:

To enable community support, self-help and resilience when faced with an emergency situation.

Objectives of the plan:

1. Conduct a risk assessment, identify hazards and possible mitigation
2. Identify vulnerable groups within the community
3. Identify key contacts
4. Identify a community emergency management team
5. Identify resources available to the community in the event of an emergency

3. Risk Assessment Analysis

Risk Matrix Score: **A** = HIGH Likelihood and HIGH Impact
 B = LOW Likelihood and HIGH Impact
 C = HIGH Likelihood and LOW Impact
 D = LOW Likelihood and LOW Impact

Hazard	Likelihood	Impact	Risk Matrix Score	Mitigation: In place / possible	Context
Flooding	Low	High	B	Regular clearance of roadside ditches and drainage systems.	Environment Agency has identified Chale as being at low risk to the main categories of flooding.
Total or partial loss of Electricity	High	High	A	Liaise with electricity suppliers in order to seek improvements in the resilience of the local electricity supply system.	Anecdotal evidence suggests that Chale experiences a higher number of power failures than other parts of the island and that these failures are normally associated with periods of inclement weather
Total or partial loss of Water	Low	High	B	Regular maintenance of local supply system by water utility company.	No evidence/history of loss of supply within the parish.
Total or partial loss of Telephone	Low	Low	D	Utilise mobile networks where available. Disseminate information via social media groups, village notice boards and local forums.	No evidence/history of loss of service within the parish.

Severe Weather	High	High	A	Disseminate information via social media groups, village notice boards and local forums.	The period of severe cold weather during January 2010 demonstrated significant issues in relation to access, transport and the maintenance of supply chains into the village.
Major Fire	Low	High	B	Raise awareness of fire safety within local community through IWFRS attendance at local community events.	No domestic high rise or major industrial risks located within parish.
Major Road Traffic Collision	Low	Low	D	CPC to monitor road traffic accident statistics within the parish and the condition of local road network and advise IWC accordingly.	No major arterial roads located in parish.
Hazardous Substance Spillage	Low	High	B	CPC to monitor condition of local road network and advise IWC accordingly.	No major industrial risks located within the parish.
Loss of Road Access	High	High	A	CPC to monitor condition of local road network and advise IWC accordingly.	Although there are alternative routes into the village the period of severe weather in January 2010 demonstrated significant issues

					in relation to access, transport and the maintenance of supply chains into the parish.
Human Pandemic	High	High	A	Disseminate guidance provided by NHS/IWC via social media groups, village notice boards and local forums.	Periods of Lockdown during 2020/21 demonstrated the need for local community engagement to support vulnerable and at risk groups.
Animal Pandemic i.e. Foot and Mouth Disease	Low	High	B	Disseminate guidance provided by DEFRA/IWC via village notice boards and local forums.	Potential to restrict access throughout the parish and impede the maintenance of supply chains.

7. Emergency Action Check list

Activation and Call Out

- Dial **999** if Life or Property are threatened in your community by an incident or emergency
- Contact the Isle of Wight Council (see contact sheet)
- Use the suggested log sheet at the back of the plan to record:
 - Any decisions you have made
 - Who you spoke to and what you said
- Contact other members of the Community that need to be alerted:
 - Those specifically under threat
 - The Parish Council via the Parish Clerk
 - Volunteers and key holders that may be needed

Contact initially may be to inform them of the emergency or inform them of current Emergency Service advice regarding any action to be taken.

Community Emergency Meeting

- Is a Community Emergency Meeting necessary?
- Is the venue safe to hold the meeting and can people get there safely?
- Has the Isle of Wight Council been informed you are holding a Community Emergency Meeting?
- Has the community been informed there will be a meeting?
- Take a copy of the First Agenda to the meeting.

Under no circumstance should you put yourself or others at risk to fulfil these tasks
